**Spider Web**

A spider web is a net that spiders make. The net is sticky. Spiders use it for catching flies, beetles, and other animals.

The net is very strong. It is from silk. Silk is five times stronger than steel. Scientists study spider webs. It is possible that they will help in building in the future.

Also, scientists study other things. Nowadays, a computer program makes a 3D model of a net. It changes it into music. Scientists think that spiders can hear this music. It is very unusual. People cannot hear these sounds. Spiders can.

Scientists hope that one day, they will understand spiders.

**The Wild West**

In the days of the Wild West clothes were very important as they helped people to live leading a difficult and dangerous life. Cowboys spent much time outdoors. They usually wore hats, boots and jeans. Hats helped them in the sun and protected their faces and eyes from the hot sun. Boots were also very important. It was more comfortable to walk through long grass in boots. There were many dangerous snakes where cowboys worked and lived and the boots protected people from them. Boots also made riding a horse easier.

**Helping Others**

Once there was a small boy. He belonged to a poor family. One day, he was crossing through the forest carrying some woods. He saw an old woman who was very hungry. The boy wanted to give her some food, but he did not have food for his own.

Then he saw a deer who was very thirsty. He wanted to give it some water, but he did not have water for himself.

Then he saw a man who wanted to make a camp but he did not have woods. The boy gave some woods to him. In return, the man gave him some bread and water.

Now he went back to the old woman, gave her some bread, and gave some water to the deer. The old woman and the deer were very happy.
